Panorama AV Installs Custom Projection Screen for Historic Hoskins Uniting Church, Lithgow

Panorama AV was consulted to supply and install a 2.4m wide motorised screen for the Hoskins Memorial Church in a manner that would have minimum impact and would be in keeping with the period styling of the building.

George Peacock, the Property Committee Chairman said "The Property committee wrestled with the notion of a permanent structure to conceal the screen, with the screen easily available when required and not detracting from the ambience of the Church".

"It was the arrival of John Armstrong from Panorama Audio Visual that gave the ideas substance. John brought a wealth of practical and technical knowledge to the problem.

The screen supplied by Screen Technics of Moss Vale was powdercoated in a golden colour to blend with the sandstone and the timber paneling and a maple pelmet was made by a master cabinet maker in Bathurst to hide the screen when not in use.

"John's thoroughness in making sure all the criteria were met was exemplary" he said. "Every deadline was met. The workmanship was of the highest quality and blended with the original woodwork and sandstone maintaining the ambience of the church"

"Thanks and congratulations to John and Panorama Audio Visual for a problem solved and a job well done"

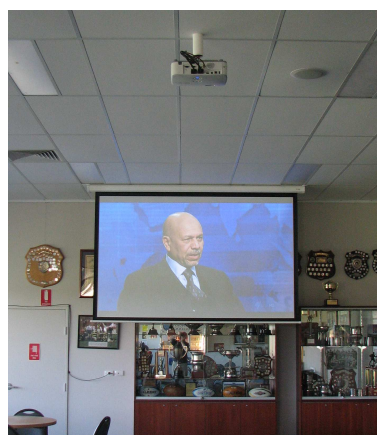

Bathurst Bulldogs Rugby Club install a new projector and screen for members and presentations

Bathurst Bulldogs Rugby Club selected Panorama AV to supply and install a new NEC widescreen projector and widescreen motorized projection screen in their new club premises.

Panorama AV designed the system to show free to air HDTV via a set top box and installed wall plate connections to allow PC presentations to be conducted from the front of the room. The system provides for DVD playback of video and photos of local club games on the big screen and the audio is fully integrated into the club's existing audio and PA system.

The system will also be used by businesses and visitors to conduct seminars and training in the club.

The installation was commissioned by Mr Brian Roberson, the club's vice president.

Happy 1st Birthday Panorama Audio Visual
