## AV Fit Out for WHK's New Building in Dubbo

Panorama Audio Visual has recently completed the audio visual fit out of WHK's new "state of the art" premises in the BlueRidge Business Park, Dubbo.

After extensive consultation with Daniel Barton, WHK's IT Manager, Panorama AV fitted out the conference room with a new widescreen projector, motorised screen, speakers & wireless mic and re-installed their existing HD video conference system.

"John provided an excellent new AV solution for our conference room when we relocated premises to BlueRidge. In my mind, it is one of the highlights of the entire new office set up." Daniel said.

"He mounted our video conferencing screens and cameras onto the wall, which gave us a massive cable clean up. Much more aesthetically pleasing. He installed a ceiling mounted projector and a large remote control projector screen as well, which is fantastic for budget night presentations catering to a large audience."

"The screen is easily visible from any location in the boardroom and we now have surround sound speakers in all 4 corners of the room and a ceiling mic, all installed by Panorama. The acoustics have never been better." Mr Barton said.

Panorama AV also wall mounted presentation screens in other areas of the building as Daniel explains. "Incidental to this was a large LCD screen installed in one of our meeting rooms and a plasma TV with Wii, which was a welcome gift in the new building for our staff."

"All in all, we are very happy with the solution"

## NEC 92" Video Wall Winter Special

*Display your message on the big screen*

Ideal for Clubs, Retail, Training, Monitoring

\* 4 x 46" Ultra Thin Bezel LCD Screens

\* 4 x Wall Mount Brackets

\* 4 x DVI Daisy Chain Boards
